

The Living Room

Where creators grow together

by ATELIER *ANTONIETA*

What is The Living Room?

It's a curated creative community inside Atelier Antonieta, where every corner of the Atelier becomes part of a living showroom.

From the main Room with its big table and natural light, to the lounge with its sofa, to the kitchen and even the storage space — the entire Atelier is designed as a place where creators work, connect, exhibit, and sell.

Here, you don't just rent a space.

You join a community that supports each other and grows together.

More than a desk and a chair

- Community support: members collaborate, communicate and grow side by side.
- Shared visibility: every object, product or artwork becomes part of the Atelier's aesthetic and can be sold.
- Curated harmony: only creators whose style fits the Atelier's identity are selected.
- Stronger together: events, launches and joint promotions amplify everyone's reach.
- Practicality: in addition to the showroom, members can use the large UG storage room to keep materials safe and organized.

How it Works

- MonMonthly membership: fixed fee (€200/month - exkl 20% MwSt)
- Shared Atelier: workspaces, lounge, kitchen, and showroom corners, all designed with style and light.
- Living Showroom: everything in the Atelier — ceramics, art, lamps, textiles, candles, furniture, flowers, kitchenware, cosmetics — can be displayed and purchased.
- Events & collaborations: members host happenings, launches, workshops, and special events together.
- UG storage: safe space for materials and stock, included in the membership.

Who it's For

he Living Room is for creators, designers, and entrepreneurs who want more than just a desk.

It's for those who:

- Believe in collaboration over competition.
- Value aesthetics, authenticity, and community.
- Want visibility and sales in a curated showroom.
- Work with products that can be lived, displayed, and loved: art, ceramics, jewelry, candles, flowers, furniture, textiles, lamps, kitchen design, cosmetics, and more.

What Makes Us Different

In a traditional coworking:

- People sit alone and focus only on their own work.
- There's no aesthetic connection.
- You only pay for physical space

In The Living Room:

- You don't just work — you belong.
- Your brand lives inside a curated showroom that enhances its value.
- You are part of a select community where collaboration creates growth.
- We all rise together.

Our Invitation

We're building a hand-selected community of like-minded creators who are focused on growth and led by soulful design & art. If this vision speaks to you..

Welcome to The Living Room.
